

WOODMILL RECYCLING COMPANY
PROVIDING POWER FROM GREENWASTE

5595 Byron Hot Springs Rd., Byron, Ca 94514
Site: 925-634-WOOD (9663)

ATTENTION DRIVERS AND FIELD SUPERVISORS:

We are not a land fill operation, 100% of the material that comes through our gate is recycled. Our prices (Quotes) are based on clean loads only. **Contaminated loads will be charged the contaminated gate rate and we reserve the right to reject a load in its entirety. You are responsible for all hidden contamination after the load is dumped. Loads must be separated prior to arriving (Example: no concrete mixed with wood waste, dirt mixed with concrete, wood waste mixed with pressure treated wood, trash/papers, metals, plastics, etc.) Another example of a contaminated load would be a load of Concrete exceeding 24" x 24" or rebar extruding over 6" in length.** Our operation is closely monitored by the county and we can be heavily fined for accepting solid waste (contaminated loads).

Your cooperation will be appreciated.

RECYCLING HOURS: Monday thru Friday 7:00 AM to 5:00 PM and Saturday 9:00 AM to 3:00 PM
PURCHASING HOURS: Monday thru Friday 7:00 AM to 3:30 PM
